The promanade concert and ball given by Christensen's band for the benefit of the Red Cross society was held in Chris-tensen's hall last evening. It was perhaps due to so many events given elsewhere last evening that there were so few at the bail. The evening, however, was most piemsanity spent by those in attendance. The hail was very prettily decorated with flags and bunting draped about the doors am windows. In the reception room was constructed a booth from which was dispensed delicious lemonade. The booth was made of flags and bunting, while flowers and the national colors formed the decoration of the tables, on which sat two large bowls of lemonade. This table was presided over by Miss Clinton, Miss Sadier, Miss Shap, Miss Glendinning and Miss Noble. MOPE COMES PROM DESPAIR.

Mayor Clark and the finance committee of the city council have had the question of the city's tax levy under consideration for several weeks. Since it was known that the assessment roil showed an approximate city total of only \$50,000,000, after equalization by the county board, as against over \$50,000,000 for last year, the executive and the finance committee believed that nothing, the proposed funding bond issue having falled upon the imminence of the war proclamation, could avert an excessively high rate, unless something happened to cause a large increase in the assessed valuations of taxable property. Now, however, two strong rays of hope for adequate relief are visible.

Should the funding bonds be issued, the taxpayers will not only save \$5.000 annually for ten or 20 years in the amount of interest paid, but also a tax of 1½ or 1½ mills, which would otherwise be necessary this year to create the first \$50,000 of the sinking fund intended as a nucleus for the redemption at maturity, in 1908, of the city's first issue of bonds.

A timely and proper suggestion has been made to do honor to Ensign Pear-son, who was on board the flagship Olympia, under the command of Admiral Dewey, at the battle of Manila, and who distinguished himself by great coolness and bravery in that now mem-orable engagement. Ensign Pearson is from Utah: he is Utah's most distin-guished representative at the battle of Manila, and it is eminently proper that Itah should honor him.

The suggestion to present Ensign Pearson with a sword comes from Utah's representatives in congress, and is warmly endorsed by Governor Wells. In regard to this matter the governor

Reductions Have Been In Cases

Where Positive Proof Was Shown -Many Small Reductions Made.

Up to date the county board of equalization has cut from the assess-ment rolls an aggregate of \$273,243 worth of property deemed by the as worth of property deemed by the assessor to have been taxable, and 14 days more, or seven-ninths of the session remain. Yesterday's reductions on account of excessive valuations of personal property and improvements, ergoneous and double assessments and mortrages canceled aggregated \$56,976. The largest cut for the day was \$18,300 on the Commercial National bank building at 46,000. Colonel Donnellan produced the original contract, calling for the erection and completion of the vary with Spain and a determination of the war with Spain and a determination of the state board of equalization to increase the aggregate taxing values in the city for the direct benefit of the state revenues, in which action the municipality would derive profit.

CONFERENCE WITH BOISE PEO-PLE BROUGHT NO RESULTS.

Work On the Seven Devils Road Will Doubtless Not Be Prosecuted For a Time, Owing to Lack of Funds-President Carr Was Well Pleased With the Condition of the Line.

General Traffic Manager Eccles, General

Superintendent Bancroft and other offi-cials of the Oregon Short Line, who have been west with President Curr, returned yesterday. Mr. Carr did not come back with them, but took the Canadian Pacific yesterday for his home in Boston. He was and was particularly impressed with the condition of the road where laying has been completed. of the road where the new steel-

laying has been completed.

While the party were in the north they held a consultation with the citizens of Boise concerning he changing of the road, so that the min line will run through that fown, instead of the city being connected with the same by a branch, as at present. The citizens there are very enthusinstic, but there is little likelihood of the change being made, as the cost of the same would be too great. It is said that it would take nearly a million of dolars to make the improvement suggested, and the management does not feel like undertaking a task of so great magnitude at this time.
